Dubai Metro Map 2026: Red, Green & Route 2020

Key facts and article summary · DriveX · Last checked: 23 November 2026

Summary: Dubai Metro has two operating lines: the **Red Line** and the **Green Line**. The Red Line shares one section from Centrepoint (R11) to National Paints (R38), then splits into two southern branches: Life Pharmacy and Expo 2020 (Route 2020). Always read the destination display before boarding. The two lines meet only at Union and BurJuman. A rail diagram shows how stations connect, but not the walk to your entrance, so check a street map too.

Good to know

- For Expo City, stay on an Expo 2020 train through National Paints; no change needed.
- The Blue Line is not open; RTA schedules completion for 2029.
- The Metro doesn't cover the whole Jumeirah beachfront, Palm Jumeirah or Global Village. For scattered stops, compare a rental car.
